

American Association of Woodturners – Cindy Bowden. International non-profit society dedicated to the advancement of woodturning by providing education, information, and organization. <http://www.woodturner.org>

Big Monk Lumber – Pete and Shirley Kekel. Big Monk Lumber is a family owned business from Erlanger, KY. They carry a full line of imported exotic woods and each is individually selected, packaged and shipped by the most effective method. <http://www.bigmonklumber.com>

Carter Products – Keith Burns. The patent pending, made in the USA, hollow roller system is a captive bar tool for safely turning hollow forms and bowls. The bar is completely captive, which allows the operator to focus on the work and art of the vessel being turned. It incorporates a fully sealed bearing, lubrication free roller system that eliminated drag on the bar, enabling a smoother flowing motion. <http://www.carterproducts.com>

Century Tree Turnings – All turning blocks are 100% waxed with paraffin and/or candle wax, which severely limits moisture loss, especially thru the end grain. All wood is generally processed as soon as possible after being harvested so it is best to assume all wood be considered green. However, due to the nature of the spalting process, spalted wood will most likely be partially air dried. <http://www.centurytreeturnings.com>

Hannes Tool - JoHannes Michelsen. JoHannes tools are conceived and engineered to be ergonomic and high functioning in all ways. He also carries a line of sanding supplies and lathe accessories including calipers and tool rests. <http://www.hannestool.com>

John Jordan Woodturning – John and Vicki Jordan. A turner for 25 years, John only sells the tools he uses. He makes his own hollowing tools, tool handles, double-

ended shear scraper and sharpening jigs. <http://www.johnjordanwoodturning.com>

Thompson Lathe Tools – Doug Thompson. Doug Thompson hand-crafted tools are made of cryogenically treated powdered metal. He personally shapes, sharpens and inspects every tool. He has a wide variety of designs; V-shaped and U-shaped flutes on bowl and spindle gouges, and has added a line of skews and scraping tools. He can also hand-craft your special order. <http://www.thompsonlathetools.com>

V M Woodworking – Michael Hare. Woodworking tools and accessories.

Vince's WoodNWonders – Vince Welch. Simply stated VincesWoodNWonders is in the service business! One of my goals is to provide superior personalized customer service allowing you to ask questions and receive answers to questions you may have regarding sanding your projects or sanding in general. He will bring a line of sanding supplies. <http://www.vinceswoodnwonders.com>

Woodcraft of Nashville – David, Lee Ann, and Aaron Sapp. Woodcraft of Nashville is a full line Woodcraft store carrying almost anything you need for your woodworking project/hobby. They also carry most of the major brands of woodworking equipment and machinery. <http://www.nashvillewoodcraft.com>
